Thank you for selecting the Nintendo® Entertainment System™ Volleyball Pak.

## **OBJECT OF THE GAME / GAME DESCRIPTION**

Start by selecting a team from the country of your choice. Two players can enjoy this sport classic, "bumping", "setting", and "spiking" the ball in a game against each other. Volleyball can also be played by a single player, challenging the computer team. From hard smashes and fake spikes to diving saves, Volleyball has it all. For those who need practice, there's even a training game.

Please read this instruction booklet to ensure proper handling of your new game, and then save the booklet for future reference.

## ***1. PRECAUTIONS***

- 1) This is a high precision game. It should not be stored in places that are very hot or cold. Never hit it or drop it. Do not take it apart.
- 2) Avoid touching the connectors, do not get them wet or dirty. Doing so may damage the game.
- 3) Do not clean with benzene, paint thinner, alcohol or other such solvents.

**Note:** In the interest of product improvement, Nintendo Entertainment System specifications and design are subject to change without prior notice.

## Player's movements

As a rule, the back players will move when the ball is behind the spike line; the forward players, when it is in front of the spike line.

If the A button is pressed when the ball is in the opponent's court, the forward players will come together in front of the net. This movement sets players for blocking.

The A button brings the forward players together.

## Time-out

Press the START button on Controller 1 to call a time-out. Time-outs cannot be called in the middle of play (just as in an actual volleyball game).

## Basic rules

- There are 15 points to a game; the first team to win three games wins the match.
- Only the serving team can score points. The receiving team can win the right to serve, but scores no points.
- The teams change courts after every game. When both teams have won two games and are playing the fifth game, they will change courts as soon as one team has scored eight points.

\* Other rules are basically the same as those in an actual volleyball game. Note, however, that there are some slight differences in the computer game rules due to programming considerations.

\* A whistle will be blown if the computer determines that the ball was not returned to the opponent's court after the third hit.

## ■ Button Operation Summary
